## 11TH ANNUAL BREAST CANCER UPDATE

MARCH 8, 2008

8:00 A.M. UNTIL 2:00 P.M.

SHERATON DOVER HOTEL  
1570 NORTH DUPONT HIGHWAY  
DOVER, DELAWARE

## *History of the Breast Cancer Update*

The Delaware Breast Cancer Coalition's Annual Breast Cancer Update, now celebrating its 11th year, began in 1997 as a small scientific meeting to update physicians about the latest trends in breast cancer diagnosis and treatment. The Update quickly became known throughout the community as one of the most trusted sources for current breast cancer information with over 400 attendees each year, including health care professionals, breast cancer survivors and the general public.

The Update has addressed a variety of issues relating to breast cancer diagnosis, treatment, survival and advocacy, including genetic testing, ethics, environmental factors, fertility issues, targeted therapies and surgical options.

In its 11th year, the Update highlights the demands of stress as it relates to informed decision making about new treatments and technologies for breast cancer. Dr. Alice Domar, internationally recognized leader in the field of mind/body medicine, will address the influence of stress on women's health.

Since 1991, the Delaware Breast Cancer Coalition, Inc. has been dedicated to raising awareness of breast health issues among health care providers and consumers through outreach, education and support services in its effort to facilitate early detection and treatment of breast cancer. It offers many innovative programs targeted to help individuals who have been newly diagnosed with breast cancer.

Supported by unrestricted educational grants from AstraZeneca, the Delaware Health Advisory Fund, and Diagnostic Imaging Associates. Additional supporters will be disclosed at the event. Continuing education credits are available for nursing professionals. This event provides 4.0 credit hours.

Corexel is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation (ANCC).

JOIN US FOR A PANEL DISCUSSION BY LEADING EXPERTS EXAMINING THE MYRIAD OF ISSUES INHERENT TO INFORMED DECISION MAKING REGARDING ELECTIVE TREATMENT, DIAGNOSTIC TOOLS AND GENETIC ASSESSMENT FOR THE BREAST CANCER SURVIVOR.

# Objectives

## STRESS, SCREENING AND SURVIVORSHIP...

- To provide insight into the role of genetics and family history in breast cancer.
- To gain an understanding of factors to be considered in making an informed decision for elective mastectomy.
- To be aware of and explore the issues involving counterfeit drugs.
- To increase awareness of current research relating to mammograms detecting vascular calcifications indicative of heart disease.
- To become informed regarding current trends in radiation treatment.
- To obtain a better comprehension of available diagnostic modalities in radiology.

ADMISSION TO THE BREAST CANCER UPDATE IS FREE.  
ADVANCED REGISTRATION IS REQUIRED.

# Agenda

8:00~8:45
